

## FAQs for Golf

**Q: Our school has never signed up for IESA Golf - what do I do?**

**A: Congratulations, we're excited to have you! Here is important info:**

1. Your school must be an IESA member school. If you are unsure if you are or not, check w your school administration or look online at this member school search link - [www.iesa.org/activities/members.asp](http://www.iesa.org/activities/members.asp). If your school is not an IESA member school, your school administration must complete this process through our office before any golf sign-up can happen.
2. Once registered as an IESA member school, school administration must complete the IESA Golf sign-up process:
  - Log in to the member center using the school password.
  - In the menu, choose "Registration and Entry Center Logins."
  - On the left side, choose "Golf" for the desired school year.
  - Select the number of students you want to register - you will provide us with those students' names AFTER we receive payment.
  - You can have a maximum of 6 boys and 6 girls (this is an individual competition).
  - The cost listed is per student.
  - Fees double after the initial entry deadline and registration won't be taken if it is not postmarked by the final entry deadline.
  - Click "Proceed to Step #2" and confirm the number of entries.
  - Print the invoice and submit it with a school-issued check to IESA.
  - Your registration is complete once IESA receives your check.
3. Once registered for IESA Golf, you are automatically added to the mailing list and will be sent reminder emails regarding roster deadlines and state competition information. You will also get an initial mailing sent to the school with IESA Golf Terms and Conditions and additional competition information.
4. If you're unsure of how many students are participating, we recommend signing up for the maximum number you anticipate and then dropping entries once you know for sure. Your school can get a full refund for any unused entries if you notify IESA by the initial entry deadline; no refunds will be issued after that deadline.

**Q: Do I have to have a certified coach for IESA Golf?**

**A: Yes! Your coach must meet the criteria listed below and your coach must be present at both sectional and state competition.**

1. IESA Golf coaches must meet the IESA Coaching Education requirements (IESA By-Law 2.110) and have passed the state-mandated concussion course (this concussion course is available via your school's member center) prior to beginning practice with students.
2. If you have questions specific to IESA Golf, please contact Chris Frasco - (309) 829-0114 or email [chris@iesa.org](mailto:chris@iesa.org). Good luck to your school!
