HOST DEADLINE: January 29th is the deadline for each area to have a host. If there is not a host by that date then the area will not have a contest.

AREA TRANSFERS: To alleviate the stress on areas that have hosts:

1. Schools will not be allowed to request an area change/reassignment after Sept. 15
2. Schools in areas without a host will not be allowed to transfer from an area with a host.

Schools serving as a host must have signage in accordance with the Concealed Carry, Act 430 ILCS 66. This includes an IESA event that is held on your school property and IESA events help off-premise (i.e. a park).

III. ENTRY FORMS AND ONLINE ENTRIES

Entry fees will be refunded only upon request prior to the initial entry deadline.

Note: Upon receipt of your password mailing from the IESA office, it is recommended that you check the number of entries you have ordered with the number of participants you have attending contest. This way if there is a discrepancy you still have time to order more events.

- 1) Schools will be able to enter contest information for all paid categories and events. Contest participant information cannot be entered by schools until paid registration has been received and processed by the IESA Office.
- 2) Participant information must be entered on-line for all schools that registered and paid for music. Contest Participant information must be completed by the appropriate deadline.

No school shall be allowed to participate in a music contest if the host school has not received their online entries at least 15 calendar days prior to the contest date.

IV. ELIGIBILITY

A. Eligibility

To enter any IESA activity, a student must be eligible under all of the eligibility rules and conditions of competition of the IESA. These include but are not limited to:

1. Attendance

Students must attend member schools and may only represent in competition the school they actually attend.

In music organization events, students from more than one member school may participate together in an event entered by one member school.

Q. Must a contestant be in school on the day he or she desires to participate in an interscholastic activity?

A. The contestant is not required to do so by Association rules. Many schools maintain local policies of this sort which would determine if he or she would be permitted to play.

Q. What is the definition of "the school which they actually attend"?

A. "The school which they actually attend" shall be viewed as the school at which a student is enrolled and permanent records are kept. The only exceptions to this definition would be students who are classified as tuition, special education, or a feeder school.

Q. Could a member school which is not in attendance due to a "strike" participate in an interscholastic contest?

A. A school shall not engage in an interscholastic activity unless 51% of the school's students are in attendance and the minimum program required by state law is being offered. This is in conformity with policy established by the Illinois State Board of Education. See By-Law 2.010 for a further exception to this answer.

Q. May students from feeder elementary schools participate in a music solo and ensemble, speech contest, as representatives of their junior high school which is an IESA member?

A. Yes. Students who attend a feeder school to their middle school or junior high school may represent the feeder grade school or they can represent the middle/junior high school in these activities. Each feeder school must be an IESA member school. If the feeder school students will be representing the middle/junior high school, the entries must be sent in with the middle/junior high school entries. If the student is going to present the feeder grade school, then the entries must be received from the feeder school.

2. Scholastic Standing

All contestants shall be in grades five through eight and shall not have passed eighth-grade standing.

A student shall be doing passing work as determined by the local school district in all school subjects and the school shall certify compliance with this by-law. Use of a player, contestant, or participant shall be deemed such certification.

POE

For all IESA activities, athletic as well as non-athletic, passing work shall be checked weekly to govern eligibility for the following Monday through Saturday. For fall activities, the first eligibility check shall be made following the first full week of attendance at the beginning of the school year. During the succeeding weeks of the school year, the eligibility check shall begin the week prior to the first contest in an activity.

The eligibility check shall be the same day each week unless school is not in session; then it must be taken on the last day of student attendance that week.

Grades shall be cumulative for the school's grading period.

Note: The IESA recommends that directors start to track the grades of their students in January so there are no surprises at contest time.

Q: We are in the 5th week of our nine week grading period. During our weekly grade check we discovered that we have a student who is receiving 4 A's and one F in all subjects. Is that student eligible to participate?

A: No. Since grades are cumulative for a grading period and the student is not passing all subjects, the student is ineligible for the following week. When the grade check is taken the following week and if the student is now passing all five subjects, then the student will regain eligibility.

Q: When a student is ineligible for a given week because of grades, may that student participate in practices held during the week of ineligibility?

A: This is a local school decision.

Q: Our teacher's grades are due to the office by 3:00 p.m. each Thursday to determine grade eligibility for the following week. One of my teachers reported a failing grade for a student when he turned in grades. On the following Monday, the teacher reported that the student who was failing turned in an extra credit report over the weekend and was now considered passing. Is this student eligible?

A: No. The student is ineligible since he was failing on the day that grades were due to the office. The fact that the extra credit project now makes the student grade eligible will help when the grade check is done the next Thursday, but the student was failing when the grade check was completed and as a result, the student is ineligible for the following week. The grade check must be done on the same day each week and cannot count grades earned or received after the check has been completed.

Situation: A new principal has come to Illinois from another state where scholastic eligibility rules differ from those of the IESA. The principal notes in the IESA rules that a student must be passing all subjects weekly to be scholastically eligible. Not understanding how to determine what "passing per week" means, the principal calls the IESA Office for an explanation.

Most important to note is that "passing per week" is determined by measuring a student's performance on a cumulative basis from the beginning of a school's grading period (usually a six or nine-week period) through the date on which the check is made. The check should not reflect only a given school week's scholastic performance; rather it should reflect the student's cumulative performance for the grading period through the date of the check. Schools are expected to conduct this weekly check in some consistent manner convenient to their individual operations. Student eligibility or ineligibility is then affected on the Monday following the date of the check.

For example, consider a school which checks eligibility every Wednesday. Records are processed through the computer and a printout of all students' scholastic standing is given to the athletic director on Thursday. The athletic director's office reviews the list and reports Thursday afternoon to the principal that a student is not passing all subjects as of this check. The principal informs the student and coaches on Friday morning that the student is not passing the required work and is thus ineligible for one week, beginning the following Monday morning. The student may play in contests held that evening or on Saturday, the next day. However, the entire next week, Monday through Saturday, the student is ineligible. The following Wednesday, the process is repeated. This time, when the report reaches the principal on Thursday afternoon, the student's record shows the student is now passing all subjects on a cumulative basis since the beginning of the grading period. Now, the principal will inform the student and coach on Friday morning that the student will become eligible again the following Monday morning. Please note that the student is not permitted to play on this Friday and Saturday because of last week's failure to meet the grade requirements. A student becoming scholastically ineligible by the weekly eligibility check must remain ineligible for one full calendar week before possibly becoming eligible again.

3. Use of Participants

Only students who are currently eligible under the rules and by-laws are eligible to participate in music contest.

Feeder Schools

The Executive Director shall have discretion to authorize the use of students from member feeder schools in junior high school activities provided they meet the following conditions:

- They are students at an elementary attendance center located in the same school district which feeds the junior high school.
- They are not members of a grade school team in a sport, scholastic bowl team, speech chorale reading group, or music organization group which is entered in the IESA state tournament series.
- They are members of the junior high school athletic or scholastic bowl team for at least one-half of the regular season contests or regular members of the speech chorale reading group.
- Written request for use of these feeder students is submitted by the junior high school principal to the Executive Director prior to participation in any given activity.
- They are eligible under and in compliance with the requirements of these By-Laws.
- The junior high school principal assumes full responsibility for the conduct of these students during all activities in which they represent the junior high school.

B. Specific Music Eligibility

All students participating in an IESA music contest must be a member of the school's band, choir, or orchestra. Students may participate in contest if there is no performing group available at their school of attendance.

Q. May a student who does not participate in the school's band or choir and who receives piano instruction outside the school, perform a piano solo in the IESA solo and ensemble contest?

A. No. Students participating in IESA music contests must be members of a school's band, choir, or orchestra.

Q. May students from feeder elementary schools participate in a music solo and ensemble, speech contest, as representatives of their junior high school which is an IESA member?

A. Yes. Students who attend a feeder school to their middle school or junior high school may represent the feeder grade school or they can represent the middle/junior high school in these activities. Each feeder school must be an IESA member school. If the feeder school students will be representing the middle/junior high school, the entries must be sent in with the middle/junior high school entries. If the student is going to present the feeder grade school, then the entries must be received from the feeder school.

Q. May students from feeder elementary schools participate in a music organization contest as representative of their junior high school band or choir which is an IESA member?

A. Yes, as long as the feeder school is a member of the IESA.

Schools that plan to use SmartMusic at contest must notify their contest host at least two weeks in advance. The school using SmartMusic accompaniment is responsible for supplying the necessary equipment to use Smart Music. B. Rhythm

Tempo- is the tempo appropriate for the musical composition? Is it steady and maintained? Should it be faster or slower? Scores submitted by the director should be marked carefully regarding any changes or specific indications of flexibility in the tempo whether specified by the composer or the conductor's rhythmic interpretations.

Accuracy- correct performance of rhythmic patterns, correct rhythmic proportions between quarters, eighths, triplets, and sixteenth notes

Pulse- students should know the difference between tempo and pulse. Do the students sing the rhythm like a series of accented metered measures or are they singing with the rhythm of the phrase? Do the students sing with a continuous flow of rhythmic phrases?

C. Interpretation

Tempo- How well are the rhythmic effects produced by changing the tempo? How skillfully do the conductor and performers employ fermatas?

Dynamics- use of dynamics regarding the manner in which the intensities are changed, use of accents and any subtleties of nuance

Phrasing- is the accuracy of phrasing in keeping with the composer's and conductor's indications, the skill with which the conductor and performers show the relationship of the phrasing to the form of the composition?

Style- how well does the conductor and the performers understand the style of the composition? Is there distinction between melody and the counter-melody or melodies? Is there balance between the melody and harmony parts? Are stylistic elements emphasized that are appropriate to the particular music being performed? How well is this done?

D. Musical Effect

Concept- execution, skill, interpretation effectiveness, personal projection; How effective was the group's interpretation? How effective was the personal projection of the conductor? How are the composer's feelings projected to the listener? How totally involved are the students in the performance? Do they perceive the concept of the composition as a whole and suitable relationships as part of the whole? How well are the skills of the group and conductor executed in the overall performance?

E. Performance Poise

Appearance- uniform dress is best

Stage presence- performance position, any mannerisms that may detract from the musical effect, behavior on and off stage, group discipline, group focus on conductor; Do the students project their love of music? Are they enjoying performing? Do they establish a good relationship with the audience? Do they acknowledge applause graciously?
