The IESA Golf Advisory Committee makes the following recommendations to the IESA Board of Directors for their January 26, 2024 meeting.

Recommendation #1

Current: The final entry deadline is 10 days before the roster deadline, which ends up being in middle to late August.

Proposed: Move the final entry deadline to August 1.

Rationale: With the increase in golf registrations year over year, especially with the addition of the team competition. This past fall, we had to shut down the golf registrations 10 days before the final entry deadline due to the high number of registrations. Schools can still pay for 6 boys and 6 girls ahead of time and can request a refund by August 15.
