

# Concussion Clinic

@ the University of St. Francis

Concussions are currently one of the most talked about topics in the media today.

This clinic will focus on Pathophysiology and symptoms of concussions, along with proper assessments and treatment of head injuries. The University of St Francis is excited to have two experts in this field to explain and discuss what you need to know about concussions as they impact your role as an athlete, parent, coach, athletic director, or administrator. There will also be additional presenters who will update everyone in attendance on new and pending legislation as well as additional topics relevant to concussion injuries.

**Date:** June 29

**Time:** 8 a.m. until noon

**Location:** University of St. Francis, 500 Wilcox, Joliet, IL

**Cost:** \$30

## Presenters

**[Elizabeth M. Pieroth \(Psy.D.\)](#)**, ABPP is a Board Certified Clinical Neuropsychologist. She has extensive experience in the evaluation of various neurological and psychiatric disorders, particularly traumatic brain injury and sports-related concussion. She has been involved in the assessment of players in the National Hockey League since 1997 and is the Head Injury/Concussion specialist for the Chicago Bears, Chicago Blackhawks, Chicago Fire and Northwestern University athletics.

**[Joe Cunnane \(MS, ATC\)](#)** has been the Head Athletic Trainer at Lockport High School since 1994. He has spoken on the topic of concussion for the past 11+ years at universities and seminars around the country. Lockport was the first institution in the country to implement Impact Neurocognitive Baseline testing with its athletes.
