

# 2020 STUDENT LEADERSHIP CONFERENCE

The Illinois Elementary School Association will host the Student Leadership Conference for 7<sup>th</sup> and 8<sup>th</sup> grade students on Friday, September 4, 2020. This student-centered conference will be held in conjunction with the IESA Athletic Directors Workshop at the DoubleTree Hotel and Conference Center in Bloomington.

## The goals of the Student Leadership Conference are to:

- support and develop emerging student leaders throughout the state
- connect students with their peers from different geographic locations
- provide focused instruction and activities that will expose students to trending and relevant topics for their age group
- create school-specific action plan to promote sportsmanship and character
- think globally about using interscholastic activities as a tool to expand student leadership

Students will have the opportunity to hear from a keynote speaker and participate in breakout sessions on topics relevant to today's middle school student. Sessions will be finalized later this spring - in past years, students have attended sessions on conflict resolution, positive influence, hazing prevention and stress management.

While students attend student-specific sessions, the adults will attend the sessions provided at the Athletic Directors workshop. Both the students and the adults will take part in the joint closing session; to end their day, the students and at least one (1) adult from their school will collaborate in a school-specific action planning session.

Schools are permitted to send a maximum of four (4) students, all of whom must be in 7<sup>th</sup> or 8<sup>th</sup> grade at the time of the conference. A light breakfast selection and lunch will be provided. If all spots have been filled prior to the deadline, schools will be placed on a waiting list.

**Please note the time schedule below. Schools are encouraged to plan accordingly for students to stay through the end of the conference for students to benefit from all planned activities.**

### STUDENT SCHEDULE
